Attn: F. R. Lockhart

TRANSMITTAL OF IAG DELIVERABLE: OPERABLE UNIT NO. TWO (OU 2) PHASE II RCRA FACILITY INVESTIGATION/REMEDIAL INVESTIGATION (RFI/RI) WORK PLAN (BEDROCK) AND RESPONSES TO AGENCY COMMENTS - JMK-0275-91

The OU 2 Phase II RFI/RI Work Plan (Bedrock) is attached for DOE transmittal to the Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH) for their approval. The IAG Milestone date for this Bedrock Work Plan is July 2, 1991.

The EPA/CDH comments have been reviewed by DOE and EG&G Rocky Flats, Inc. Responses have been made and incorporated into the work plan as appropriate. Comments by DOE staff have also been incorporated in this work plan.

This work plan represents the second part of the OU 2 Phase II RFI/RI Scope of Work. The first part is the Alluvial Work Plan and the second part is the Bedrock Work Plan. Both documents describe field activities that will yield information on contamination sources and plumes beneath the 903 Pad, Mound, and the East Trenches areas which will be summarized into one Remedial Investigation report due December 1992.

If you have any questions regarding this work plan or related issues, please contact Tom Greengard (extension 7121) or Brook Wilson (extension 3200) of Remediation Programs.
